

Go zero waste store

How it works

STEP 1

Bring your own containers (BYO)

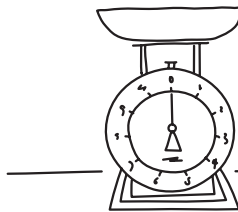

Please prepare your clean containers such as glass jars & eco-friendly bags before you visit us.

We kindly ask for your cooperation in reducing the plastic waste.

STEP 2

Fill & weight

Please choose the favorite products as much as you want.

Your original assortment can be made according to your budget.

If you don't have containers, we have recyclable glass jars and compostable wax-paper bags in our store.

STEP 3

Pay & donation

When you bring your containers, we offer a large serving or a special discount.

If you use paper bags for shopping, we ask you voluntarily for a donation to the environmental protection organization.

We would appreciate your understanding and cooperation for protecting the Mother Earth and preserving it to our future generations.
